

D38 Ref 01

D38 Modern Slavery Statement.

Cleaner EV Ltd has taken steps to ensure that slavery and human trafficking is not taking place in our supply chains or in any part of our business.

This statement is only in relation to CLEANER EV and its business, not the business of its member firms (as further explained below). References to “our people” only refers to those individuals working on behalf of CLEANER EV, not the member firms.

In accordance with [Section 54, Part 6 of the Modern Slavery Act 2015](#) (the Act),

this statement sets out the steps that CLEANER EV has taken to ensure that slavery and human trafficking is not taking place in our supply chains or in any part of our business. This statement is in respect of CLEANER EV’s financial year ended November 2024 and was approved by the CLEANER EV CEO in January 2025.

Overview

The Act requires commercial organisations supplying goods or services with a turnover of more than £36 million to prepare and publish an annual 'Slavery and human trafficking statement'. The statement must set out the steps an organisation has taken, if any, during its financial year to ensure that slavery or human trafficking is not taking place in its business or supply chain.

What is modern slavery?

Modern slavery is an international crime, affecting millions of people around the world - a growing global issue that transcends age, gender and ethnicities. Sadly, vulnerable people from overseas as well as across the UK, are forced to work illegally against their will across many different sectors from agriculture, construction, hospitality, retail, manufacturing, and more.

Our organisation structure and supply chains

CLEANER EV Ltd is a private company limited by guarantee, incorporated in Scotland, England and Wales. It is an electrical and utility infrastructure engineering business carrying out works across the following sectors, Residential Renewables, Industrial and Commercial and eMobility.

Our business largely uses professionally qualified people employed directly by CLEANER EV or subcontracted from a reputable professional company. Our people policies ensure fair treatment of our people in the UK and around the world.

Our external suppliers are mostly UK & EU based companies in low-risk sectors (such as engineering manufacturing).

Our policies in relation to slavery and human trafficking

CLEANER EV has established a zero-tolerance position on violations to the UK's anti-human trafficking and anti-modern slavery laws. If we find breaches of these laws within our supply chain, we will look to support companies in their efforts to comply with the legislation.

Our CLEAR values of Collaboration, Leadership, Excellence, Agility, Respect, and Responsibility are the pillars of our culture. They embody everything that we do at CLEANER EV and how we do business. They outline the expectation of our people's behaviour with colleagues, member firms, vendors and people around the world.

We seek to treat everyone fairly and consistently, creating a workplace and business environment that is open, transparent and trusted. Our policies and procedures relating to the Modern Slavery Act are in line with our culture and values.

Our specific procedures to address modern slavery risk include:

- A 'Modern slavery policy' for our people, which sets out the key issues and how we should respond including a process for raising concerns internally
- An ethics hotline that allows for anonymous reports to be submitted by our people
- A process for handling complaints raised by people outside of CLEANER EV
- Employment policies that protect our people from unfair treatment and promote a fair and inclusive workplace
- Robust recruitment processes in line with relevant employment laws
- Market-related pay and rewards reviewed annually
- Wellbeing strategy and initiatives to support our people's physical and mental wellbeing and lifestyle choice
- A 'Procurement policy' for how we deal with suppliers and a 'Supplier code of conduct' making clear the standards we expect.

Due diligence processes, risk assessment and management

The implementation of our policies and procedures includes due diligence on suppliers that we engage with. To mitigate against this risk, we assess the companies that we deal with as part of the decision-making process for all engineering projects.

When we admit a new subcontractor or supplier to the Cleaner EV supply chain, a thorough due diligence process takes place to ensure that the company has a good reputation with appropriate practices in a number of areas including people and culture.

D38 Ref 01

Key performance indicators to measure effectiveness of steps being taken

We log complaints received via our compliance department together with the actions taken. To the date of this statement, CLEANER EV has had no identified instances of modern slavery.

Training on modern slavery and trafficking

CLEANER EV provides periodic training to our people on the subject of modern slavery and our policies to address the risks to help increase education and awareness.

CLEANER EV takes responsibility for this Statement and its related objectives and will review and update it in accordance with The Act.
